Role with Organization

Policies, Programs, and Services

What policies, programs, and services do you currently offer or have in place?
Select all that apply.

☐ **Field services** - Animal Service/Control Officers are employees of the shelter and calls for complaints/concerns in the community are handled and dispatched by shelter employees.

☐ **Community Cat Program - Shelter Neuter Return (SNR)** - Cats brought to the shelter by community members. The cats are sterilized, vaccinated and returned to where they came from.

☐ **Community Cat Program - Traditional Trap-Neuter-Return (TNR)** - Cats are trapped with the intent of bringing them to a shelter or clinic for sterilization and vaccination and then returned to where they were trapped.

☐ **Shelter animal Behavior/Training/Enrichment** - Animals are helped to cope with being in shelter and as they transition to a new home or return to their home by incorporating behavior, training, and/or enrichment into daily care.

☐ **Shelter spay/neuter** - Have surgical capabilities (facility and staff) to perform S/N surgeries at the shelter for animals that come into the shelter.

☐ **Public spay/neuter** - Have surgical capabilities (facility and staff) to perform S/N surgeries at the shelter for animals who are owned by the members of the community.

☐ **Public wellness clinic - microchip/vaccinations** - Provide identification (collars with ID tags and/or microchips), vaccinations, medical exams and monthly preventatives (flea/tick, heartworm, dewormer) to pets owned by members of the community.

☐ **Public full service veterinary clinic** - Provide veterinary care (surgery +/- dentistry, diagnostics, treatment plans, etc.) for pets owned by members of the community.

☐ **Public behavior resources** - (e.g. forward facing resource library) – Provide easily accessible information and resources for members of the community who are interested in working to resolve behavioral issues that they are experiencing with their pet(s) and/or are looking to prevent potential issues.

☐ **Public dog behavior/training classes** - Provide easily accessible classes (online or in person) for members of the community who are interested in working to resolve behavioral issues that they are experiencing with their pet(s) and/or are looking to prevent potential issues.

☐ **Intake diversion helpline** - A staffed phone line dedicated to helping folks with questions and concerns about their pets or other animals they are concerned about in their community. Staffing could be by paid personnel or volunteers. Resources and advice are offered to help resolve issues and/or help owners rehome pets on their own.

☐ **Foster program - cats** - Have an established (and staffed) program overseeing and managing volunteers who foster kittens and cats in their homes.

☐ **Foster program - dogs** - Have an established (and staffed) program overseeing and managing volunteers who foster puppies and dogs in their homes.

☐ **Self rehoming support for owners** (i.e. Home to Home) - Provide access to a website (either the shelter's own page or other external page) and help create pet profiles for owners who need to rehome their pets.

☐ **Open adoptions/adopters welcome** - Support and use an open adoption process that is conversational and focuses on providing support post adoption to help both the pet and the adopter be successful living together.

Safety net programming (i.e. food bank, pet supplies) - Resources are offered to folks who are facing challenges in caring for their pet and thus the pet is at risk of relinquishment to the shelter or needing to be rehomed. Such programs include food banks that provide free pet food, low cost/free veterinary care (at the shelter or at a local clinic), training/behavioral support (at the shelter or with local trainers or online), rental deposit support, temporary housing/fostering, referrals to other social services in the community, etc.

Support for Kitten finders (i.e. kitten kits, wait 'til 8) - An established program run by paid or unpaid personnel that provides information to people who find kittens to help determine if the found kittens need help and if it's determined that they do offering supplies and support to care for the kittens until they are big enough to have surgery and be adopted out.

What is your shelter's current policy on Healthy Free Roaming Cats? *

Appointment Systems

Intake by appointment - non-emergency stray:
Does your shelter have an established process for finders to make an appointment for intake of healthy stray/found animals? Generally this includes providing ideas and support to help the finder locate the pet's owner prior to their scheduled appointment

	No, we do not offer appointments	Yes, we offer appointments, but they are not required	Yes, we require appointments
Stray Cats *	○	○	○
Stray Dogs *	○	○	○
Stray Others *	○	○	○

Intake by appointment - owned:
Does your shelter have an established process for pet owners to make an appointment for intake of their pet who they can no longer care for? Generally this includes providing ideas and support to help the owner either solve the issue that is causing the need for re-homing or to help them re-home the pet on their own to avoid shelter intake prior to the appointment.

	No, we do not offer appointments	Yes, we offer appointments, but they are not required	Yes, we require appointments
Owner Surrender Cats *	○	○	○
Owner Surrender Dogs *	○	○	○
Owner Surrender Others *	○	○	○

Overall, what percentage of animals come in via appointment?

Please select... ▾

Housing Systems

Please estimate what % of housing units (non-surgery recovery) are double-compartment units.

	0%	25%	50%	75%	100%
% cats portalized *	○	○	○	○	○
% dogs dbl compartment *	○	○	○	○	○
% rabbits dbl compartment *	○	○	○	○	○

Please estimate what % of time the double-compartment units are kept open (not including shutting doors for cleaning, movement, or, for dogs, due to weather). If you do not have double-compartment housing, choose 0%

	0%	25%	50%	75%	100%
% time cat units open *	○	○	○	○	○
% time dog units open *	○	○	○	○	○
% time rabbit units open *	○	○	○	○	○

If your cat housing is not currently double compartment (portals installed), what would help you get there? *

☐ Grant to purchase portals

☐ Access to tools needed for installation

☐ Instructions for installing portals

☐ Installation help: physical support installing portals

☐ We do not need portals, we already have double-compartment housing

☐ What are portals?

Data Management

Tell us a bit about how you manage your data.

What software system(s) do you currently use? *

☐ Chameleon

☐ Petpoint

☐ ShelterLuv

☐ Other

How easy is it to create custom reports and download spreadsheets of your data? *

○ Easy, we do it all the time

○ Not hard, but not simple

○ Hard, but we do it

○ Hard, it takes time and energy we don't have

○ Not possible at all

○ Other

Do you currently submit data to Shelter Animals Count? *

○ Yes

○ No

○ Unsure

Are you currently tracking services via the new community data matrix or something similar? *

○ Yes

○ No

○ Unsure

Animal Data

How many animals do you have in your shelter's care today?

Ideally it would be great to know in the shelter and in foster, but tell us what you can.
*

[_____]

One of the focus areas for the Cal4All Animals program is reducing euthanasia in shelters. There are circumstances where euthanasia is the appropriate outcome for an animal (medical conditions, danger to the public, etc.). What about the animals you wish you didn't have to euthanize? The ones that might not be euthanized if you had the resources and support you need.

How many animals in your shelter's care are likely to be euthanized, that you wish you didn't have to euthanize?
*

[_____]

Please provide any context or comments on your euthanasia estimate above.

[_____]

What kind of animals make up the animals most frequently euthanized? (i.e. Big behavior dogs, neonate kittens, medically fragile b/c no vet, etc.)
*

[_____]

Is there a program or policy that you feel might help you better address the needs of these animals? *

Capacity Data

How would you describe your shelter's current capacity with regards to ...

	Mostly well within capacity, with room to flex	Mostly at capacity	Over capacity in some areas	Over capacity in most areas	Capacity urgently exceeded
Housing *	○	○	○	○	○
Health and Welfare *	○	○	○	○	○
Care and Conditions *	○	○	○	○	○
Staffing *	○	○	○	○	○

Please refer to the **Capacity Score Chart** for guidance on how to classify your organization's capacity.
